

## Sebring Elks Support Assistive Fishing Device

On April 9, 2024, Roger Poppen and Elk member Tom Porter were presented with a \$200 check from the Sebring Elks Lodge #1529. Several years ago, Roger began designing and building an assistive fishing device to help those with limited mobility enjoy this pastime. Roger, who is from Minnesota and enjoys fishing, continues to build the devices and now with this donation from the Sebring Elks, his good work will carry on. This apparatus will be demonstrated during the Sebring Elks Lodge #1529 Fishing Tournament on May 11, 2024, at the lodge on Lake Jackson. Roger's assistive fishing devices will then be donated to those in need within the community.
