From the Desk of the Chaplain & News Writer

Hello my fellow members. This month I'm going to talk about something that is more on a personal matter. As many of you by now have heard, both my parents had heart issues. It started with my father, Roger, I won't go into all the details but dad has A-Fib and on August 31, he had an issue and he coded in the ambulance on the way to the Kansas Medical Center in Andover. They revived him and he wound up in the ICU for five days. Then on September 2, my mother, Marsha, was hurting and we took her to hospital, they said she had a heart attack and they transported her to the Kansas Medical Center. On Sunday they did a heart cath and found two major blockages and they put in two stents. They said it was a good thing she didn't wait any longer or she would not have made it. I almost lost both my parents within the same week. They are now both home and recovering. They are doing surprisingly well. For me, this is the week I called, the week from hell. However, God and the guardian angels prevailed. Over the years, I myself have been on my death bed on three different occasions as, I also have health issues that I manage. I want to thank everyone for all the prayers and well wishes for my folks, my sister and myself. So, no one can ever tell me that the power of prayer doesn't work. I know it does, my folks and myself are living proof. Thank you to everyone who reached out with prayers and thoughts during these difficult times.

*It goes to show we never know what life is going to throw at us. There are no guarantees in life and that life is so precious. We all take it for granted. It can all change in the blink of an eye. It seems like everyone you talk to these days has some sort of a health issue. I know at times we don't feel good or we just had a bad day and sometimes we all say things and do things, we really don't mean. I've noticed since COVID that in general, people seem to be a lot more impatient, and rude. I don't know if this has anything at all to do with it but, we all need to just relax and enjoy life. One thing my parents always taught me is that if you don't have anything nice to say, then don't say anything at all. I believe that God put us all here on this great earth to help one another. We are all just trying to survive in this crazy world of ours. This is also another reason I joined the Elks, was to help others. Our organization was created to help our Veterans, our Youth, and our Community. We are a charity organization. Everyone needs to remember this. Not only this the Elks members are a family. I was reminded of this over this past week. Without my Elks family I would have had a more difficult time in dealing with this life change. So please be kind to one another and mindful of what you say to others. We are all part of the Elks for the same reason. **To help others.** Remember that words are a powerful thing. Once something is said it can never be taken back. I was always taught that you can only hurt those that are closest to you. So, please think before you speak. I am full aware that this is not always easy. I have always tried to treat others the way I want to be treated back. God knows I am not perfect, I try to be but there is nothing that is perfect except maybe in God's eye. We are all just people, plain and simple. No matter what your beliefs are. Just remember that life is so precious and we are all God's children.*

As of 08-31-2023 the State of Kansas as a whole has donated \$20,212.74 to date. That is \$4.52 per member of the 4,471 members in the state. The new ENF goal is set at \$4.80 per member.

ENF is how our programs and grants are funded. The easiest way to donate is to become a Fidelity Club Member. This is a monthly donation that will come out each month automatically, either from your bank account or credit card. Consider setting this up for \$10.00 or more a month. *Sean Cutsinger*
