

Good morning everyone. I hope this email finds you all healthy and sane! Don't ask your spouse you may not like the answer!

No real decision was made by the governor yesterday other than he indicated Illinois should peak with cases by mid-May. Apparently he will relax some 'stay in place' restrictions yet to be announced. As all of us know each day seems like the same day. In fact sometimes they all feel like Saturdays. If possible try to get outside and walk around the neighborhood. We did yesterday and saw an Elks couple. As we passed by I greeted them by saying 'good morning' then corrected myself as it was afternoon. We all agreed that sometimes we forget what day of the week it is, much less the time of day.

A VOICE OF REASON:

Dr. Anthony Fauci, US Infectious disease expert, since 1984 has warned that if the US moves too quickly to end stay-at-home orders there could be another surge in Covid-19 cases. Speaking to ABC News, the director of the National Institute for Allergy and Infectious Diseases, a key member of the White House coronavirus taskforce, was much more cautious than the president, who has downplayed the outbreak and pushed to open the US quickly.

"If you jump the gun and go into a situation where you have a big spike, you're going to set yourself back," Fauci said. "So as painful as it is to go by the careful guidelines of gradually phasing into a reopening, it's going to backfire. That's the problem." Fauci also warned: "Unless we get the virus under control, the real recovery economically is not going to happen."

May God bless our nation's health care workers, give them the strength and courage to continue working and protect their health.

THIS IS NOT A VOICE OF REASON, HEALTH EXPERTS WILL TELL US:

The lodge officers and I are looking forward to seeing everyone when it is safe and healthy to do so.

Don't forget to support your local area businesses.

We found a really cool video so click on the link and then select the "Stay Home" official video then sit back and enjoy!
