

Destiny's future is bright
thanks to the liver transplant
that saved her life.

Destiny, liver recipient

Destiny wants to be a doctor when she grows up. The active 6-year-old loves to climb, dance and play. As an infant, she was given only six months to live. Thanks to the generous gift of an organ donor, Destiny is now the picture of health.

You have the power to Donate Life.

Be an organ, eye and tissue donor.

To find out how, go today to www.donatelife.net
or call 1-800-355-7427.
