

DONOR ADVISED FUNDS

Tax-advantaged charitable giving accounts

WHAT IS A DONOR ADVISED FUND (DAF)?

Donor Advised Funds are often compared to a 401(k) for retirement savings or a Health Savings Account (HSA) for healthcare. You contribute cash or assets, get the tax benefit upfront, invest the balance in the market, and make grants out to nonprofits over time.

Any person, couple, or family can open a DAF account at more than 1,150 providers around the country. DAFs are offered by community foundations, charitable affiliates of financial institutions, national independent providers, and cause-specific entities. DAFs have surged in popularity in recent years because they're incredibly effective at increasing giving capacity and streamlining philanthropy—for donors of all levels.

DO YOU HAVE A DAF?

The ENF gratefully accepts gifts from Donor Advised Funds! Contact your DAF provider to recommend the ENF as a grantee and provide them with the following information:

Elks National Foundation, Inc.
EIN: 26-3718342

DAF gifts count toward personal recognition and Lodge per-member giving totals. Please be sure to opt in to share your name and donor details so we may recognize you for your gift.

Every grant recommended through your DAF helps us build stronger communities. Thank you for your support of our mission!

HOW DO DAFs WORK?

NOW

Donor contributes cash or non-cash assets to a sponsoring organization.

Contributions are invested by the sponsoring organization and grow, tax-free.

Donor gets an immediate tax deduction for their contribution.

LATER

Donor grants money to charity!
