Basic Rules and Guidelines

What are the rules for playing?

- ❖ The game begins with a standard deck of 52 playing cards, along with 2 jokers, which are placed in numbered envelopes from 1 to 54 and stored in a locked display case.
- ❖ Players purchase tickets for \$5 each, writing their name, phone number, and the envelope number they wish opened if their ticket is selected. Once each week on Friday at 8:00pm we draw a ticket.
- ❖ It is not necessary to be present to win.

There is a winner every week!

- ❖ If the chosen envelope does not reveal the Queen of Hearts card, the winner receives a consolation prize.
- ❖ The value of consolation prizes is determined by the card drawn and the overall ticket sales. For instance, if ticket sales were \$2,500 and the drawn card was the Jack of Clubs, the winner would receive \$50, as illustrated in the diagram below.

Prize Payment Schedule for Consolation Prizes

Consolation Prizes
